**THINGS YOU NEED TO KNOW**
- Széchenyi Bath and Spa is located in a stunning Neo-baroque building, an attraction on its own right.
- It opened its gates in 1913 as the first permanent bath in Pest; a temporary bath in the same location dates back to 1881.
- This is Europe's largest medicinal bath; the complex has 15 pools (both indoor and outdoor) and offers a full range of thermal water treatments.
- Sauna, steam room and massage services are also available here.
- Two thermal springs supply it with water; their temperature are 74 °C (165 °F) and 77 °C (171 °F).
- The bath is named after Count Istvan Széchenyi, the 'greatest Hungarian', mastermind and financer of the Chain Bridge.

**THINGS TO DO THERE**
- Admire the stunning Neo-baroque exterior of the building.
- Buy your ticket. You will be given what appears to be a watch. At the turn styles the attendant will activate your "watch". This is your electronic key for a secure locker to store your belongings.
- Head to the changing rooms and after storing your clothes in the lockers (using your "watch") enter the bathing area.
- Explore all of the indoor medicinal baths or head out the open air pools.
- Do not miss the famous pool chess boards, where Hungarian men gather around to play.
- Enjoy different types of saunas inside the complex along with various massages.

**TIPS & INSIGHTS**
- The bath is for both sexes.
- If you forgot your towel or swimsuit they can be rented or bought in the spa.
- On weekends and holidays the entrance fee is higher than on weekdays.
- It is an unforgettable experience to bathe in the outside thermal pools in the cold winter.
